

UCSC Acting

Three to four acting interns will be accepted for the 2024 Season. Our program provides acting interns the experience to work closely with professional artists and artisans to allow networking possibilities and to strengthen their craft with opportunities to perform in a repertory company. Acting interns are auditioned then cast in mainstage productions. Interns also rehearse and perform in the annual Fringe Show, a production dedicated to intern performance and design. Acting interns also participate in Master Classes taught by the season's acting professionals on topics ranging from clowning to scene work, and the business of acting to Shakespeare's verse. Acting interns are paid a weekly stipend of \$250 for 12 weeks. Housing is not guaranteed but please feel free to indicate your need and we will do our best to accommodate.
